

Czech Chemical Society, Ioannes Marcus Marci Spectroscopic Society, and
Czech Technical University in Prague

are pleased to announce:

20th Radiochemical Conference

10 – 15 May 2026, Mariánské Lázně, Czech Republic

SAVE THE DATE

RadChem 2026

Organised on behalf of the EuCheMS Division of Nuclear- and Radiochemistry
Sponsored by the European Association for Chemical and Molecular Sciences

RadChem 2026 will cover most topics of the former meetings of this series. Papers are invited from all the fields of nuclear- and radiochemistry addressing particularly the following topics

- Radionuclides in the Environment, Radioecology
- Nuclear Analytical Methods
- Chemistry of Actinide and Trans-actinide Elements
- Radiation Chemistry
- Production and Application of Radionuclides
- Separation Methods, Speciation
- Chemistry of Nuclear Fuel Cycle, Radiochemical Problems in Nuclear Waste Management
- Radiopharmaceutical Chemistry, Labelled Compounds
- Education

However, the submitted contributions need not be limited to the enumerated topics.

As usually, Equipment and Services Exhibition will be organised in parallel to RadChem 2026. Round table discussions should offer the space for exchange of ideas and views. Further information will be distributed together with the Call for Abstracts in September 2025. In the meantime, please check our website for updates: <http://www.radchem.cz>.

IMPORTANT DEADLINES

Call for Abstracts: September 2025
Abstracts Submission: 31 January 2026
Authors Notification: February 2026
Hotel Reservation: February/March 2026
Early registration: 14 March 2026
Advance Programme: April 2026
Full Papers: 10 May 2026 (at the on-site registration)
